

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. APPLN. NO. 09/116,589

striking reconstructing illumination light of given wavelength on a side of said transmission type hologram that is not facing said photosensitive material, so that interference fringes produced by interference of light diffracted from said transmission type hologram and reference light incident on said photosensitive material are recorded in said photosensitive material, wherein said transmission type hologram comprises a computer generated hologram (CGH).
